Skills

Languages: C/C++, Golang (Go), Python, SQL

Technologies & Tools: MongoDB, Cassandra, PostgreSQL, Micro services, RabbitMQ, REST API, gRPC, Docker, Cloud, AWS, Ansible, Git, IAM, Keycloak, Test-Driven Development (TDD), Design Patterns, Object-Oriented Design

Functional: Requirement Gathering, Backlog Prioritization, Technical leadership, System Analysis, System Design and development, Training, Mentoring, JIRA, Confluence

Work Experience

DELL TECHNOLOGIES, Pune

Nov 2017 - Present

Software Principal Engineer - Product Owner

- Spearheaded the end-to-end development **PowerProtect Cyber Recovery** solution for data integration, protection, analysis and recovery of mission critical data from Cyberattacks over network for on premise and Cloud.
- Developed a Golang-based backend with 15+ microservices in secure Docker containers, ensuring 80%+ unit test coverage.
- Led cross-functional initiative to migrate legacy database to Keycloak-based identity management, coordinating with multiple teams and microservices to ensure successful delivery.
- Built a scalable reporting framework supporting 4 report types, improving data analysis efficiency
- Designed and built multiple AI projects like AI chatbot, Test Predictor for Impact Quality Analysis with AI, Streamlit, RAG, Ollama and MCP (Model Context Protocol) server.
- Led dependency management as a Product Owner, aligning engineering priorities. Collaborated with other Product Owners to align priorities, streamline workflows, and ensure seamless coordination across teams.

CONNECTWISE, Pune

Mar 2017 - Nov 2017

Senior Software Engineer

- Built a Slack messaging integration for Continuum's network operation center using Go, WebSocket, and REST API, enhancing partner communication.

IZEL TECHNOLOGIES, Pune

Mar 2016 - Mar 2017

Senior Software Engineer

- Developed a Call Home System for monitoring Pavilion Storage Systems in the field, transmitting data to a cloud portal with web application, load balancer, web servers, and database components.
- Implemented Go-based RESTful web services, integrated RabbitMQ as a message queue for event handling and data collection from external web services, and utilized Cassandra as a NoSQL database for cloud data storage.

AUTODESK [DELCAM], Pune

Jun 2009 - Mar 2016

Software Engineer - Senior Software Engineer

- Designed and developed Delcam Crispin ShoeMaker, 3D CAD software in C++, enabling virtual shoe designs and rendering high-quality images and videos.

Education

Pune University

Jul 2014 - Jun 2016

Executive MBA (Systems)

CGPA: 5.53/6

College of Engineering Pune

Jul 2005 - Jun 2009

B.Tech. in Computer Science and Engineering

CGPA: 8.11/10

HSC Maharashtra Board 2005

Percentage: 87.67%

SSC Maharashtra Board 2003

Percentage: 91.06%

Awards and Certificates

2026 : Dell ISG AI Hackathon Winner for Best Business Value category

2025 : Dell Game Changer Award for leading & delivering IAM integration in shortest time

2024 : TechEDGE program certified from IIM Bangalore and NIIT

2021,2023 : Dell ISG Hackathon finalist in AI category

2019 : Dell Champion Award in Dell Technologies.

2017 : 3rd rank in TechGig Code Gladiators in ConnectWise.

2013 : Outstanding Performer Award in Delcam
